

Pro Battery Kit with Two 98Wh Batteries and Dual Charger

Overview

The C-2KIT-98 is a battery kit that includes a dual pro battery charger and 2 98Wh pro batteries. The batteries are safe to take onto airplanes and can sustain a 12A continuous draw. This means that multiple pieces of equipment can be run simultaneously via P-Tap splitters or power distros, or that high-amperage equipment (up to 12A) can be used off of a single battery. The charger has a 16.8V 2.6A 4-pin XLR power output and charges at 15V 4A. LED indicators display charge progress, and the unit can be converted from a charger to power supply or powered down with the flip of a switch. Two batteries can charge simultaneously on this charger.

Special Features

- Two batteries included in kit
- Available in Gold-Mount and V-Mount Styles
- 98Wh batteries with 12A continuous draw power a wide array of equipment simultaneously
- Batteries safe for air travel
- Charger has 16.8V 2.6A 4-pin XLR output
- Charges two batteries simultaneously
- LED indicators on charger for charge status

Specifications

Capacity(mAh)	Batteries: 6800mAh each
Chemistry	Batteries: Lithium-Ion
Continuous Draw	Batteries: 12A
Input Voltage	Charger: 90-240VAC @ 47~63Hz
Output Voltage	Batteries: 14.8V each Charger to Battery: 15V 4A Charger 4-Pin XLR Output: 16.8V 2.6A
Shipping Dimensions	6 x 12 x 15 in.
Shipping Weight	7 lb
UPC Code	Sony V-Mount Version: 847983026562 Gold Mount Version: 847983026579

What's Included

- 1x 4-Pin XLR Power Cable
- 1x C-2K Dual Pro Battery Charger
- 1x Power Cable For Charger
- 2x IB-HDL98 Pro Batteries

Optional Accessories

- AB-USB** D-Tap (P-Tap) to USB Adapter for Gold & V-Mount Batteries
- AB101** Anton Bauer Power Tap Cable with Coaxial
- AB102** Anton Bauer Power Tap Cable with 4-Pin XLR
- AB103** Anton/Bauer Power Tap Cable with Mini-XLR
