

DH5

5" Full HD HDMI Monitor

ONE SHEET

Overview

Amazing image quality in a small and affordable package — this is the Ikan DH5 Monitor. Featuring a super-sharp, full HD, IPS LCD panel. Its diminutive size makes it ideal for lightweight rigs and cameras. Plus, the DH5 is packed with the standard monitor software package as well as histogram and audio level meters.

DH5 | 5" Full HD HDMI Monitor | **UPC Code:** 847983015382

Special Features

Full HD

The full HD panel on the DH5 is amazingly clear, packing 440 pixels per inch.

Tools You Need

Aside from the amazing screen, the DH5 comes equipped with all the software features you need to get the shot right the first time. False color, peaking, zooming, guides, as well as histogram and audio meters. It also features image flip so you can under-sling the monitor depending on your rigging needs.

Inputs & Outputs

Feed the DH5 your HDMI signal and have it output it as well. In addition to the HDMI output, the monitor also features a headphone out. To help check your audio, you can enable the audio meter display.

In the Box

Included with the DH5 are a sun visor, sunhood, screen protector, screen wipe, USB drive for software updates, plus a Canon E6 and Sony L battery plate — a lot of value in a small package!

Peaking

Ikan monitors are equipped with Monochrome Peaking features which highlight the desired focus area in a bright, red outline. The operator adjusts the focus control until the red indicator outlines on the desired area are razor sharp, indicating optimal focus. For the best results, be sure the subject is properly exposed.

DSLR Scaling

The DSLR Scaling function enables users to extend their DSLR camera's HDMI video output to any option of four: Normal, 3:2, 16:9 or Full Screen — convenience made simple.

Underscan

Underscan constrains the size of your image so the monitor shows everything the camera is seeing.
