

## 2-Stage Aluminum Tripod with Fluid Pan/Tilt Head (E-Image)

### Overview

The EG01A2 is a versatile tripod kit at an economic price. Made primarily for lightweight camera rigs, the EG01A2 comes with an assortment of accessories and features to simplify your shooting experience, allowing you to set up, shoot, pack up, and move on to the next shot so you can get the most out of your day.

The GH01 head is built for quick-swapping cameras and keeping your position if you have to remove your rig for adjustments. The top plate slides along a track and has tick marks for noting its precise position. The quick-release plate pops up and out for removal without disturbing your position. The AT7402B tripod legs can support the maximum weight of the GH01 and then some and have an integrated mid-level spreader to make it easy to use and reduce the chance of losing or damaging parts in transit.
