EI-GH25-KIT

Features you need, Prices you want.

Mono-Lock

The Mono-Lock feature allows for quick and easy adjustments to the height of the tripod. The user can easily change leg stages without the hassle of multiple locks.

GH25 Head

The E-Image GH25 Head employs a stepped fluid Pan and Tilt drag system setting that supports up to 55 lbs of payload. The 1-15 steps of counterbalance settings provide confident counterforce for different weighted cameras.

Monitor Mounting Points

Attaching your monitor has never been easier; with mounting points directly on the head of the tripod you can easily see your monitor no matter how you may need to move the camera while shooting.

Pedestal Kit Tripod

The E-Image GH25 dolly's two stage aluminum tripod legs have a mid-spreader positive leg locking system and a dolly spreader with lockable wheels.
