ELE-BMPCC-C

Features you need, Prices you want.

No Tools Required

Quickly mount and dismount your camera without using tools. The built-in 1/4"-20 thread thumbwheel enables smooth and efficient transitions between camera setups.

Locked & Secure

Lock your audio and HDMI cables into place with the attached cable lock system. Shoot with ease of mind knowing cables won't come unplugged.

Handle Your Cage

With a reversible top handle, you can balance your grip support to your specific needs. A cold shoe mount located on the front of the handle allows for mounting a microphone or small light.

Two Rods, One Adjustment

The unique baseplate is designed to clamp/control two 15 mm rods with a single thumbscrew, making rod adjustments possible without having to reach around the rig.

Versatility

Whether you're shooting a live event or a feature film, the ELE-BMPCC-C has the flexibility to adapt to your camera rig needs.
