

ELE-GOFLY

GoPro Handheld Shoulder Rig

ONE SHEET

Overview

The professional Handheld Shoulder Rig delivers field-tested reliability, solid construction and all the features required for professional performance.

The ELE-GOFLY features include a lightweight design that rises above competitors in its price range and class.

The ELE-GOFLY GoPro Handheld Shoulder Rig is a versatile, lightweight handheld shoulder rig system designed for GoPro or other action cameras. A dual grip support platform features three 1/4"-20 threads, useful for mounting a pair of action cameras for stereoscopic 3D applications, or for accessories. The 15mm rod port lets you quickly switch between handheld and shoulder-mounted set ups by attaching or removing the reversible shoulder pad.
