## The ikan Stereoscope Deluxe

The Freedom to Shoot Stereoscopic 3D Video... Anywhere.

The ikan Elements Stereoscope Deluxe is the perfect shooting platform for your next stereoscopic 3D video production. This tool allows you to mount two small to mid-sized cameras on an adjustable configuration utilizing 15mm rods and dual platforms to align the two image capture devices at precise distances to successfully shoot stereo 3D images.

With the simple addition of 2 foam grips to your Stereoscope basic kit, you have successfully upgraded your rig with the ability to shoot stereoscopic 3D video anywhere you choose. Separate from your tripod with confidence and experience the limitless possibilities of ikan's Stereoscope Deluxe!

And with the rapid expansion of 3D-ready cameras, such as Canon's XF100 and XF105 cameras, and post-production software ready to handle the workflow, such as Adobe Creative Suite 5, the Elements Stereoscope can become your go-to choice for shooting affordable, post-process ready stereoscope 3D.

**\$ 399.00**
