

ELE-SHS

The ikan Shoulder Stock

Take Dead Aim

Now you can have the extension rig you've been looking for with the same quality and reliability you have come to expect from the Elements line with the ikan Shoulder Stock. This simple, light weight configuration provides the ability to move quickly and efficiently to any position while utilizing the shooter's body for added stability. The rear loaded gun stock features two durable 15mm rods to support your DSLR device while the attached chest pad provides absolute comfort in any shooting configuration. The provided rail mount and cheese plate ensures that your DSLR device will be soundly secured while the included adjustable foam grip offers precise control. Add a tripod mount for drop and shoot capability or additional rail mounts and cheese plates for even more expandability. With the ikan Shoulder Stock on your arm, your next project is as good as done!

A Perfect Fit

Designed with you in mind, the Elements line is everything you love about camera support, only lighter, smaller and simplified. With the Elements, you aren't bound to someone else's vision. You can customize your camera rig exactly the way you want it. At ikan, we understand one size does not fit all in regards to camera rigs or operators. We created the Elements to be customizable in an infinite number of ways so you get the features you need at the price you want.

\$ 199.00
