

ES-T37

Panasonic GH4/GH5 Handheld Camera Cage Rig (*Tilta*)

ONE SHEET

Overview

The ES-T37 is a versatile camera cage for professional shooters. It fits both the Panasonic GH4 and GH5 micro four thirds mirrorless cameras. The cage is fitted to the dimensions of these cameras with easy access to the battery and side compartments. The ES-T37 has over 85 threaded accessory mounts, three cold shoe mounts, an integrated lens adapter mount, and a baseplate with both a 15mm rod system and track for a 15mm lightweight dovetail plate.

ES-T37

Features you need, Prices you want.

High -Quality Construction

The ES-T37 is a fully enclosed unibody cage made out of high-quality CNC machined aluminum.

Multi-Camera Compatibility

The ES-T37 cage is designed to be compatible with both the Panasonic GH4 and GH5 micro four thirds mirrorless cameras.

Baseplate Support

The ES-T37 includes a 15mm Light Weight Support (LWS) quick release base with an integrated lens adapter mount. Users can simply remove the body of the rig from the base by unlocking the quick release, releasing the safety latch, and sliding off the unit. The cage has both an integrated 15mm rod system and a track for a 15mm lightweight dovetail plate, giving the user multiple mounting, balancing, & accessorizing options.

NATO Rail Top Handle

A removable top handle with a cold shoe mount is included with the ES-T37. The handle can be easily mounted to or removed from the NATO rail on top of the cage body. The handle can also be rotated in 90 degree increments by loosening the top screw. Additionally, the ES-T37 includes a 15mm rail mount that can be mounted to either end of the top handle and secured with two screws.

Versatility

The ES-T37 can be configured to work as a simple cage, or it can be accessorized for using the wooden TT-0511-R control handle, the top handle, mounting to a lightweight dovetail plate, or even converted into a shoulder rig with optional accessories.
