

HomeStream™ HDMI to USB Video Capture Device 4K 30FPS Input

Overview

The [ikan HomeStream™ Video Capture Device](#) captures high-quality HDMI video & audio from your device and outputs the signal directly to your computer or laptop. Hook up your DSLRs, Camcorders, Action Cams, Digital Cinema Cameras, and/or Game Consoles and broadcast in Full HD 1080p 60fps and with low latency. No longer will you have to rely on a standard cheap-looking webcam for your online chatting or video streaming. This capture device is suitable for vloggers, streamers, gamers, teachers, company meetings, etc.
