

LBX5

Lyra Half x 1 Bi-Color Studio Light with DMX Control

ONE SHEET

Overview

Ikan introduces the new Lyra DMX brand of soft lights. The High CRI chip LEDs paired with a soft panel gives you a very soft wrapping light. Its Bi-color adjustability from 5600K-3200K is great for any light set-up. The brightness of the light is consistent across all color temperatures. The beam angle of the light is a wide 110 degrees, making it possible to light a large area with a single fixture. The best thing about a Lyra soft light is the nice clean shadow you get from the light itself. The 30 degree yoke and the baby 5/8" or junior 1 1/8" combo pin allow you to attach to any stand or use with many different types of configurations. Strong steel tension knobs on the yoke lock the light in place when aiming the fixture.

The large yellow knob on the back allows you to control the light with a few simple clicks. You can control the brightness, color temperature, and the DMX channel making adjustments as needed. The LED readout gives you the ability to have very precise measurements. The proven ikan barn doors with intensifiers are included to allow you to shape the light.

LBX5 | Lyra Half x 1 Bi-Color Studio Light with DMX Control | UPC Code: 847983021154

Special Features

- High CRI LED's
- Solid Bi-Color 3200K-5600K Color Temperature

LBX5

Features you need, Prices you want.

High CRI LEDs

The high CRI LEDs give you a strong output allowing for very bright light.

Bi-Color Adjustable

The LBX5 has a Bi-Color adjustable color range.

Bright Consistent Light

The Lyra Bi-Color LED is ideal for those quick interviews, allowing you to not overheat your talent.

110° Beam Angle

A wide beam angle gives you lots of light.

Combo Pin

The combo pin Baby 5/8 inch/Junior 1-1/8 Combo Pin adapter with right angle receiver hole allows for the use of any grip stand.

Clean Single Shadow

The single shadows give you a more natural shot.

Steel Tension Knobs

The new stronger steel knobs allow you to lock the light at any angle.

Single Knob Control

A single knob to control the lights allows the user to adjust on the fly. Whether it's brightness or DMX, it can be controlled at the touch of a button.

New LED Readout

The bright new LED readout gives you a quick reference of the output of the light.

Barn Doors Included

The barn doors with intensifiers allow you the ability to shape the light.

Equivalent to 400 Watts Incandescent

The Lyra LED Light is equivalent to a 400 watt incandescent soft light.

30° Angled Yoke

The 30 degree yoke allows for unobstructed movement of the light.
