

LEB-004

2500/4000 Watt Electronic Ballast (*Lightstar*)

ONE SHEET

Overview

The 2500-4000 Watt Electronic Ballast can handle flicker-free shooting up to 10,000 fps. The LEB-004 automatically identifies whether the lamp head is 2500W or 4000W. With its durable coating and industrial connectors, the 7-meter long Head to Ballast cable enables it to endure the most demanding environments with ease. Best of all, not only is it much smaller and lighter than the standard magnetic ballast, but it also increases bulb life by at least 20%!
