18kW/12kW Watt Electronic Ballast (*Lightstar*)

ONE SHEET

## Overview

The 18kW/12kW Electronic Ballast can handle flicker-free shooting up to 10,000 fps. The LEB-007 automatically identifies whether the lamp head is 18kW or 12kW. With its durable coating and industrial connectors, the 15-meter long Head to Ballast cable enables it to endure the most demanding environments with ease. Best of all, not only is it much smaller and lighter than the standard magnetic ballast, but it also increases bulb life by at least 20%!
