

LSW-010

150 Watt Tungsten Fresnel Light (*Lightstar*)

ONE SHEET

Overview

The Lightstar 150 watt Tungsten Fresnel Light is a compact and reliable lighting fixture. The small size makes it ideal for on-location shoots or for small studios where space is at a premium. They include accessories other brands leave out such as the barn doors and diffuser frames.

The LSW-010 150 watt light is focusable and built with a 1.9 inch Fresnel lens that can go from a spot at 11 degrees or a flood at 55 degrees beam angle.

LSW-010

Features you need, Prices you want.

Compact & Lightweight

The fresnels are constructed out of high-quality, extruded & die cast aluminum. This provides extreme durability without being heavy. Despite its small physical size, each unit can produce a powerful light output.

Beautiful & Focusable

Using standard tungsten bulbs, these lights output a beautiful, accurate 3200K color temperature. The lights also feature a focus knob, which allows you to manually adjust the beam angle and intensity.

Kits Available

The compactness of these lights makes them ideal for portable kits. The kits also ship in custom cases, which can carry lights, stands and other accessories.
