☐ 5 x Remote Control
☐ 5 x Power Supply w/ Cable
☐ 5 x HD Light Stands
☐ 5 x Yoke Mount
☐ 2 x Stand Bag
☐ 2 x Light Bag

CHECKED BY

Getting to know your LYRA lights

PRECAUTIONS:

- Keep the fixture away from water and all flammable gases or liquids.
- Use only the recommended batteries.
- Handle the unit with care.
- DO NOT attempt to disassemble or repair the unit without first contacting service department at ikancorp.com.
- Keep the unit clean and free of dust. The unit can be cleaned with a soft dry cloth.
- Use only parts provided by the manufacture.
- Always use caution when plugging in the fixture.

Mounting the Lyra to a Stand:

The Lyra LED Soft Light comes with a pre-installed yoke and combo mount. This allows the fixture to easily sit and adjust on any stand. The 30° yoke gives the light free-range motion without obstructions. The Baby $^5/_8$" and Junior 1-$^1/_8$" Combo Pin allows the user a wide range of stands. The light can be mounted either horizontally or vertically on a $^5/_8$" baby pin.

Power the LEDs:

The Lyra Soft Light comes with an included AC power supply and 6 foot cable. This allows the user to plug into any standard 120-240v electrical outlet. The Lyra LED Soft Light can be powered from either a Gold Mount pro battery, or a V-Mount battery. The fixture comes standard with either Gold-Mount or V-Mount plates. The plates can be easily removed and replaced for the type of batteries that are available.

Adjusting the Color & Brightness of the Light:

The Lyra LED Soft Light is controlled by the large yellow knob on the rear of the fixture. The knob was designed with the idea that it could be reached and adjusted when the light is up on a stand. The knob has three push settings.

1. The default setting is the brightness from 10%-100% brightness.
2. By pressing in on the knob the color temperature can be adjusted. (Bi-Color Lights)

Remote Control

The light can be adjusted also using the RF remote control. The use of the remote allows for multiple lights to be connected as well as control of the brightness.

Remote Control Button Functions
- Press & Hold "A" for 5 seconds to sync remote control to light(s).
- Press "A" to power ON/OFF
- Press "B" to adjust 4 levels of light intensity in increments of 25%
- Press and Hold "C" & "D" for 5 seconds to Enable/Disable sound
- Hold down "C" to increase light intensity 0%-100%
- Hold down "D" to decrease light intensity 100%-0%

Specifications

LW5 Specs	
Light Source	255 0.2 Watt LEDs
Head Type	Daylight 5600K
Lens	½ Stop Soft Diffusion
Beam Angle	110°
Control / Dimming	Knob Control
Build Material	Heavy Duty Resin Plastic
Cooling System	Passive Cooling
Stand Mount	Baby 5/8" & Junior 1-1/8" combo pin
Fixture Size	14 x 8 x 3 In.
Fixture Weight	4 lbs
Power Supply	Input: 110-220 VAC Output: 15VDC
Yoke	30°
