

MD2

WenPod MD2 3-Axis Handheld A.I. Gimbal Stabilizer

ONE SHEET

Overview

The WenPod MD2 is a next generation 3-Axis Gimbal, in terms of world's most advanced A.I. technology, world's smallest form factor and its featherweight in it's class. MD2 helps bring videographer's video to the next level.

MD2 | WenPod MD2 3-Axis Handheld A.I. Gimbal Stabilizer | UPC Code: 847983015177

Special Features

- Intelligent Stabilizing A.I. Algorithms
- Fully Automatic Calibration with No External Software Required
- Compact Featherweight Design with a Load Capacity of 6.6 lbs
- Two Handles with Full Joystick Gimbal Operation Control
- Battery Life Lasts up to 6 Hours with Continuous Use

Recommended For

- Portable Cinematography
- Mirrorless Cameras, DSLRs, & Camcorders (**under 3.3 Lbs**)
- Event Videography & Photography

MD2

Features you need, Prices you want.

A.I. Stabilized Fast Setup

WenPod MD2 is the first in this industry to apply its self proprietary A.I. Algorithm and neuron technology to gimbal device. All 3-Axis brushless motors are incorporated with independent CPU, making the stabilizing motion as smooth as silk. It is the only gimbal in the market to use fully automatic calibration technology, which greatly reduces the down time of the device.

Multi-Mode

The WenPod MD2 can be handled in 4 different mode of working position. Some of its built-in function, like Follow-Me Mode, will be automatically activated by gesture.

New Aluminum Material

WenPod MD2 is made of premium grade aluminum in order to achieve lightweight and durability. With the spectacular all-in-one industrial design, MD2 can be used in both heavy and light duty working environment.

Smart Battery, Longer Battery Life

WenPod MD2 has a long battery life, which can last for up to 6 hours of continuous use. Overcharge protective PCB is built-in. Battery life is clearly shown on its LED meter with a touch of a button.

Powerful Motor, Precision Control

WenPod MD2 is built with their self-proprietary, high precision, high power and silent brushless motor with sensor and independent CPU. The precision control is Up to +/- 0.01 degree.

Supports Most Cameras

WenPod MD2 is built to fit different variety of camera, from compact size camera, mirrorless camera, and DSLR to Cinema Camera.

Replaceable Battery

Premium grade Lithium Polymer battery with built-in protective circuit board and fast charging technology. It can be charged independent on desktop charger (*optional accessory*).

Specs

Battery Charge Time	120 min.
Battery Life	180-360 min.
Battery Type	LiPo 14.8V 2400mAh
Compatible with	DSLRs, Mirrorless Cameras, & Camcorders less than 3.3 lbs (1.5 kg)
Dimensions	13.7 x 9.6 x 11 In.
Max Capacity	6.6 lbs
Operating Humidity	<90%
Operating Temperature	-10 ~ 40° C / 14 ~ 104° F
Weight	3.9 lbs
Shipping Dimensions	20.5 x 16.75 x 12 In.
Shipping Weight	13 lbs

What's Included

- 1 x AC Adapter
- 1 x Handle Bar
- 1 x MD2 Stabilizer
- 1 x Portable Protective Case
- 1 x Quick Release Plate
- 1 x Sliding Baseplate
- 1 x Smart Battery
- 1 x Type-A (US) AC Plug Adapter
- 1 x Type-C (Euro) AC Plug Adapter
- 1 x Type-G (UK) AC Plug Adapter
- 1 x Type-I (AUS) AC Plug Adapter
- 1 x User Guide
- 1 x Warranty Card
- 2 x Threaded 15mm Rods
- 3 x ¼"-20 D-Ring Screws

Optional Accessories

- ELE-PN Pinch Clamp
- MA207 7" Articulating Arm
- MA211 11" Articulating Arm
- HDMI-AA-18 1.5 ft HDMI Cable (Standard to Standard)
- HDMI-AA-36 3 ft HDMI Cable (Standard to Standard)
- HDMI-AC-18 1.5 ft HDMI Cable (Mini to Standard)
- HDMI-AC-36 3 ft HDMI Cable (Mini to Standard)
- HDMI-AD-18 1.5 ft HDMI Cable (Micro to Standard)
- HDMI-AD-36 3 ft HDMI Cable (Micro to Standard)
