# MPA70

Features you need, Prices you want.

## Extraordinary Range

No other monopod in its class has the ability to collapse down to 18.8 in. & expand up to 70.8 in. while supporting a payload of up to 35 lbs.

## Strength Meets Portability

Constructed out of aluminum and weighing only 1.59 lbs, the monopod is still light enough not to weigh you down.

## Twist to Lock

The MPA70 expands through 5 different sections. Each one features a twist lock knob for quick height adjustments.

## Flip Mount

The base of the monopod contains a ¼"-20 screw that can be flipped around and converted into ⅜"-16.

## Perfect Match

The MPA70 pairs perfectly with Ikan Beholder gimbals such as the EC1 or MS-PRO to expand your cinematic creativity. Simulated drone shots, jib shots, and comfortable low angle shots can now be achieved using the monopod.

## What's Included

1 x MPA70 Monopod  
1 x Carrying Case  
1 x 1/8" Hex Key
