

OYB10

Onyx 1 x 1 Bi-Color Aluminum LED Light

ONE SHEET

Overview

The Onyx 10 Bi-Color Aluminum LED Light is fitted with 1024 high quality LED lights. The aviation grade aluminum panel design allows for better heat ventilation. The OYB10 provides a flicker-free experience when adjusting the brightness (10%-99%) and color temperature (3200K-5600K). The OYB10 can be controlled remotely with either the included remote control or DMX via the Ethernet port. Having the option of being powered either by the power adapter or a V-Mount Pro battery, the OYB10 can meet both your studio or on the field needs.

OYB10

Features you need, Prices you want.

Aluminum Frame

The Onyx 1 x 1 LED Light's aluminum body gives it a perfect balance of being both durable and lightweight. The light fixture gives off minimal heat due to the aluminum frame which allows for excellent ventilation.

96+ CRI LED

With 1,024 96+ CRI LEDs, the Onyx OYB10 Light provides incredible color rendition and brightness. The Onyx OYB10 LED Light features a bi-color adjustable range between 3200K-5600K.

Remote Controlled

With the remote control, you can easily control lights up to 150 feet away. Also, multiple lights can be set together to all be controlled by pressing a button;. DMX control is also available through the Ethernet ports.

Battery Powered

The Onyx 1 x 1 Bi-Color 3200K-5600K Aluminum LED Light light can be powered either by the included AC Power supply or a V-Mount Pro Battery.
