

PD3-B3

Remote Air Mini Three Channel Wireless Follow Focus (*PD Movie*)

ONE SHEET

Overview

By incorporating App interface control with the Remote Air Mini, the results are both unique and extremely convenient! PD Movie has combined your favorite wireless lens control elements into this app to make it even more powerful. All you need to do is download it from the App store and connect via bluetooth technology to enjoy a list a benefits. The new Remote Air Mini is equipped with a thin, light, strong, and highly accurate brushless motor. You can hardly hear any noise even at high-speed rotations! The strong force can easily drive many professional camera lenses such as Angénieux, Arri Ultra and Cooke Optics.

PD3-B3

Features you need, Prices you want.

German-Engineered Brushless Motor

This thin, light, strong, quiet, and highly accurate brushless motor can easily drive many professional camera lenses such as Angénieux, Arri Ultra and Cooke Optics.

Stable Signal Transmission

Low power Bluetooth connectivity to achieve faster data transmission and immediate response. Maximum Transmission distance is recommended at 20 meters to maintain stable connectivity.

Convenient Software Upgrades

What sets the Remote Air Mini apart from the competition is its App touch control operation. Whether it's the iPhone, or iPod Touch, you can wirelessly download the iOS version of the app for free.

Intelligent Auto Zoom

Simply set the zoom range and the required time to run during a live shot. Based on the parameters you set, the device will do the rest of the work!

Automatic Lens Data Backup

The Remote Air Mini will automatically store lens data for registered members. Quickly upload data to servers, and download saved data on any device.

Manual Marking

Marking is simple, fast and extremely accurate with a 0.01% margin of error.
