## PD Movie Remote Live Multi Control System High Torque

ONE SHEET

### Overview

The PD Movie Remote Live (PDL-HT) is a Self Contained Multi-control handgrip and high torque motor system that can control Focus , Iris, Zoom control on both cinema and EF camera lenses. Easy One Push calibrates to the mechanical stops of the lens.

A secondary A to B stop can be set for operating within a certain range. Hardwired motor drive cable provides little to No rotational latency. Two control modes to change motor speed and throw. The High Torque motors will operate larger zoom lenses or lenses with built in motors. Comes with 0.8 Gear motor drive but other pitch gears are coming soon.

PDL-HT | PD Movie Remote Live Multi Control System High Torque | **UPC Code:** 847983014088

### Special Features

- High Torque Motors
- Interchangeable gears
- Extruded Aluminum design
- Integrated battery/Grip
- Digital Motor
- Easy One Push Primary Calibration
- Interfaces easily with different cameras and rigs
- Adjustable Rounded Ergonomic Grip
- Multiple Control Modes
- Multiple Lens Pitch Gears Available

Features you need, Prices you want.

## Multiple Mounting Options

The hand control unit is designed for multiple mounting options for a variety of shooting environments, e.g., left/right hand control, shoulder, jib, and gimbal. The clamp adapts to a range of 14-40mm.

## Integrated Handgrip Battery

The lithium-ion battery is integrated into the handgrip — one less accessory to add to your rig — and provides up to 10 hours of operation.

## Multiple Control Modes

Whether you are rack-focusing on the fly or doing very precise moves, the AB stop feature will help you hit your marks. Two modes of operation provide a speedy motor move or a slower, ramped move.

## Easy One-Push Mapping

The system features automatic lens calibration and can map virtually any cinema style lens right out of the box. The two included motors deliver professional grade performance, critical when shooting with high-end cinema glass and greater lens torque

## Motor Mounts: Both 15 & 19mm

The whisper-quiet motor easily mounts on both 15mm & 19mm rods and can be positioned to adjust to different lenses and rigs.

## All-Inclusive Package

With a solid build and robust performance, the PD Remote Live Multi-Control System is the all-in-one package today's camera technicians need in an increasingly demanding industry.

## What's Included

- 1 x Multi-control handgrip
- 1 x High Torque Motor (EF)
- 1 x Motor drive cable
- 1 x Adjustable pan handle clamp
- 1 x Charger
- 1 x 15/19mm Adapter Ring

## Specifications

Channels	None
Signal	
Max Range	
Power Supply	Built-In 2600mah Rechargeable Lithium Battery
