

## Overview

The Ikan Saga line of LCD monitors is designed to help you tell your story. The 7" super bright SX7 is designed with high end features, durability, and field use in mind. The SX7 is viewable in even the brightest conditions with its super bright 1700 nit LCD panel. With the aluminum chassis and gorilla glass, the SX7 is able to survive any production shoot. The monitor's high end software features such as scopes and 3D-LUTs help you get the right shot the first time.
