V3800 3.8" TFT LCD Monitor

If you're in need of an affordable alternative for framing, then look no further than the new ikan V3800. This small, lightweight, monitor literally fits anywhere. It comes with two internal stereo speakers and headphone out. The size and weight make it perfect for jib operators, steady cam operators or for assisting a teleprompter shoot.

When you add accessories like the AC107 portable power supply, the cheese stick Jr., or one of the ikan monitor arms, you've got an inexpensive solution to ensure confidence every time you shoot.

Kit Includes

AC Adapter and AV Breakout Cable.
