

VG7

The ikan VG7

Kit Includes

VG7, 2x Female RCA Cables, Camera Shoe Mount, AC Adaptor, VGA Cable, Remote Control

ikan introduces the all new VG7 LCD Monitor. The VG7 is a 7-inch standard definition monitor with an 800x480 resolution and aspect ratios of either 4:3 or 16:9. Compact and totally portable, the VG7 has a reinforced metal ¼-20 mount for your tripod, camera shoe or articulating arm mount. On the rear of the unit, you'll find a 62mm thread spacing that allows you to use the ikan ELEMENTS Cheeseplate or Cheese Stick Sr. (sold separately) for additional mounting options. Great as a confidence monitor or an additional monitor for your computer, the VG7 has not one, but two composite inputs and, of course, the standard VGA input. The unit also has outputs for headphones and PC audio. The VG7 uses a 5-24 DC Power source and can be either powered using the included A/C Power Adapter or the ikan AC 107 sold separately.
