Overview

The 5600K Daylight Fresnel light delivers field-tested reliability, solid construction, and all the features required for professional performance. The WS-F100's features include a 4" Fresnel lens with a spot to flood focusing knob and a quiet active cooling system that delivers reliable, consistent performance.

The WS-F100A White Star 4" Fresnel 100 Watt Light is made from a solid aluminum construction, and has an energy efficient LED that has a high output with an excellent color rendering index. The White Star has local built in dimming as well as a digital readout for assigning the light to a DMX channel. The ultra quiet active cooling fan pulls heat from the fixture. The 4 leaf barn doors cut and shape the light and can be folded flat for transportation.
