

X1

Wearable 1-Axis Stabilizer for Smartphone & GoPro (WenPod)

ONE SHEET

Overview

Designed with the active video shooter in mind, the Wenpod X1 is the smallest and lightest gimbal stabilizer available to date. The X1, a single axis gimbal, was engineered specifically for use with the GoPro Hero 3 & 4 action cameras. Its single axis design stabilizes the roll-factor of the camera's movement, allowing an operator to achieve shots that, while fluid, do not lose their intensity and kinetic energy by being over-stabilized.

The X1 easily integrates into any avid GoPro shooter's rig by utilizing the same forked GoPro mounts as the camera. Even though the X1 is designed with action cameras in mind, it is also a suitable mount for most smart phones, especially if that phone were being used with the ever ubiquitous selfie-stick.

X1 | Wearable 1-Axis Stabilizer for Smartphone & GoPro (WenPod) | **UPC Code:** 4897056560178

Special Features

- Designed to capture a horizontal steady shot without sacrificing the thrill of motion intrinsic with extreme sports
- Supports most popular smartphones & GoPro 3/4 Series
- This single axis stabilizer is the world's smallest & lightest stabilizer
- Operates up to 360 minutes under normal conditions
- Simple, single button, operation
- Easily attaches to your preferred GoPro Mount

Recommended For

- Action Videography

X1

Features you need, Prices you want.

Dynamic Shooting

The X1 is built for extreme sports lovers. It stabilizes the video footage horizontally, without sacrificing the thrill of dynamic motion in the video.

Incredibly Compact

It's the world's first wearable gimbal. World's smallest - only 90.32mm in length. World's lightest - only 215gm.

A.I. Stabilized

With the self-propriety A.I. Technology, it can automatically calibrate with the touch of a button. The weight parameter of your phone or GoPro camera will be recorded, and calibrated by the device.

Perfect Match with GoPro

The X1 is perfectly designed to fit all GoPro Mount, ranging from helmet, bike, chest, and pole mount. It is engineered to fit GoPro with the transparent protective case.

Dual Compatibility

The X1 is uniquely designed with a retractable clips to fit either GoPro Hero 3/3+/4, or a smartphone. With a selfie stick installed, it is a perfect tool to shoot video in selfie mode.

What's Included

- 1 x X1 Stabilizer
- 1 x GoPro Securing Band
