## iLED 150 Portable L.E.D. Light

The iLED 150 replaces the iLED 100 as our popular on-camera super bright lighting accessory. With its built in battery mount and small size, the iLED 150 requires a fraction of the power of other on-camera lights for an unbeatable price. With brighter LED's and new ventilation slots to keep your light cool, the iLED 150 provides in-camera lighting better than ever.
