S-056WL Water Saddle Bag

The S-056WL water bag is made of smoother and softer waterproof fabric. It can be filled with water to serve as a water weight bag, or inflated to be used as an airbag. It can be folded into a portable size, taking up little space.

Specifications:

Payload	10.0kg / 22.0lb
Size	64x32.5cm / 25.2x12.8in
Net weight	220g / 0.5lb

Featuring a saddle design, these weight bags offer stability and balance when anchoring your photography equipment.
