

UHF Metal XLR Wireless Transmitter (CoMica)

Overview

The Comica WM200/300TX-XLR UHF Metal Wireless XLR Transmitter is a metal wireless microphone XLR transmitter, which is charged by AA batteries and supports 48V phantom power output. It utilizes UHF wireless FM technology and includes a high-resolution LCD lattice screen, multiple channel selections, an integrated LCF(Low cut filter), Auto-scanning, Auto IR Channel-match, RF signal strength adjustment, MIC/LINE IN input dual selection, Power monitoring at receiver end, Sound pickup dynamic display, Backlight adjustment and other functions, at the same time with strong shielding anti-noise performance.

The Comica Wireless XLR Transmitter works up 200 ft from the receiver with a direct line of sight. It supports smooth recording with no staccato to meet the needs of long-distance recording.

The Comica wireless XLR transmitter can provide power for microphones that support 48V phantom input. The Unique Auto-scanning function helps you quickly find the channel with the least interference greatly improving the stability and quality of wireless transmission. With the low-cut function, the level of low-frequency noise is filtered out to provide a clean sound which prioritizes vocal tones. You have the ability to automatically sync the Comica wireless XLR transmitter to the receiver which quickly assigns both to the same channel. A manual syncing option is also available.

When the distance of the Receiver and transmitter is short, you have the ability to adjust the signal strength to low-strength mode to save battery power. Low consumption mode will provide you with power for 4 hours or more.

Special Features

- Working Distance up to 200ft. (100ft. with no direct line of sight)
- Supports 48V Phantom Power
- LCF Low Cut Filtering Mode
- Auto-Scanning for Quick Channel Selection
- Manual or Auto IR Sync
- Adjustable RF Signal Strength
- Audio Dynamic Display Bar
- Full Metal Manufacturing

Specifications

Channels	96
Frequency Bands	Group A: 520.000MHz~548.000MHz Group B: 550.000MHz~578.500MHz
Transmission Power	10dBm / 15dBm
UPC Code	6971120980982
Shipping Weight	1 lb
Shipping Dimensions	7 x 7 x 5 in.

What's Included

- 1 x Wireless XLR Transmitter
- 1 x User Manual
