

GA752 - 2 Stage Aluminum Tripod with GH03 Head (E-Image)

UPC: 847983009701

Overview

The EG03A2 is a best-selling tripod kit made by combining the GH03 fluid video head and mono-lock GA752 tiered tripod legs. The lightweight, durability, and customization options for the kit sets it apart from others in the same payload range, and the included accessories, such as the GB1 Handle, SC-1 Shoulder Bag, and more, add even more value to the bundle.

The GH03 head has multiple mounting points for pan handles and accessories and is designed for DSLRs, mirrorless cameras, and small camcorders. It can also easily handle base plates and small cages for those cameras, allowing further customization through accessorizing.

The GA752 tripod legs come with everything you need for an easy setup and steady shooting and also work with any extra accessories you might need like the GS02 ground spreader or any of the E-Image dollies.
