## HDSLR Camera Shoulder Rig

ONE SHEET

### Overview

The professional Shoulder Rig delivers field-tested reliability, solid construction and all the features required for professional performance.

The ELE-DCFLY features include a lightweight design and a cut out for battery access that rises above competitors in its price range and class.

The ELE-DCFLY HDSLR Camera Shoulder Rig is a simple, lightweight shoulder rig system that is designed for HDSLRs. The design features a dual grip handle bar with ¼"-20 threaded mounting points and a cutout for access to your camera's battery, a single 15mm rod, and an adjustable shoulder pad. The 15mm rod port lets you switch between handheld and shoulder-mounted setups by attaching or removing the shoulder pad via the included 12" rod.

ELE-DCFLY | HDSLR Camera Shoulder Rig | **UPC Code:** 847983011537

# ELE-DCFLY

Features you need, Prices you want.

## Quick Battery Access

Rig was designed with a battery cutout for quick access to the battery terminal. This allows you to swap batteries without having to remove the camera.

## Handheld Conversion

The user can quickly, and easily remove the shoulder pad, and rod to convert into a handheld rig.

## Lightweight Construction

With the compact design, the ELE-DCFLY allows for easy storage and transportation when the rig isn't being used.

## Protection

Included adhesive friction strip to prevent camera from spinning, shifting, or moving during use.
