

# ES-T17-A

Sony alpha Series Handheld Camera Cage Rig w/ Start/Stop Wooden Handle Trigger for Sony Alpha Series (Tilta)

ONE SHEET

## Overview

The ES-T17-A consists of a fully enclosed unibody rig made out of a single piece of CNC machined aluminum featuring a handcrafted Start/Stop remote trigger handle wooden handle made out of Brazilian rosewood.

The bottom of the rig has an open section for the battery port, which makes battery removals or changes much easier. A NATO rail mounted top handle is included with the ES-T17 camera rig. It can be adjusted into four different positions and the top handle also features a cold shoe mount. The entire rig features an impressive total of 101 ¼"-20 and 14 ⅜"-16 threaded mounting holes. This allows you to mount accessories on every side of the camera if needed!

In addition to the multiple points, the ES-T17 camera rig is also versatile enough to fit all versions of the Sony a7 Series. It can also be configured to work for the Movi, Ronin, Shoulder rigs, drones, etc.

ES-T17-A | Sony alpha series Handheld Camera Cage Rig (Tilta) | **UPC Code:** 847983015085

# ES-T17-A

Features you need, Prices you want.

## Sony a7 Series Compatibility

The camera rig is designed to perfectly fit the entire Sony a7 series of mirrorless digital cameras.

## XLR Audio Adapter Compatible

The cage is designed to fit around the top of the camera's hot shoe mount. This allows the operator to mount Sony's XLR audio adapter (XLR-K1M or XLR-K2M) directly to the top of the camera.

## Baseplate Support

- A 15mm Lightweight Support baseplate with an integrated lens adapter comes with the ES-T17.
- The lens adapter is compatible with EF to E-Mount or PL to E-Mount Metabones adapters. A second lens support bar is also included.
- The quick release rail design allows the ES-T17 cage to easily connect or detach from the baseplate.
