

LSW-004

2000 Watt Tungsten Fresnel Light (*Lightstar*)

ONE SHEET

Overview

The Lightstar line of tungsten fresnels is extremely lightweight and compact. The small size of these light fixtures makes them reliable and ideal for on-location shoots or small studio setups. Barn doors and diffuser frames are among the accessories that set them apart from the competition. They can also be manually focused!

The LSW-004 watt light includes a versatile 6.8-Inch fresnel lens, which can work as both a spot light at 11-degree or a flood light at a 55-degree beam angle.

LSW-004 | 2000 Watt Tungsten Fresnel Light (*Lightstar*) | UPC Code: 847983015153

LSW-004

Features you need, Prices you want.

Compact & Lightweight

The fresnels are constructed out of high quality, extruded and die cast aluminum. This provides extreme durability without being heavy. Despite its small physical size, each unit can produce a powerful light output.

Beautiful & Focusable

Using standard tungsten bulbs, these lights output a beautiful, accurate 3200K color temperature. The light also features a focus knob, which allows you to manually adjust the beam angle and intensity.

Kits Available

The compactness of these lights makes them ideal for portable kits. The kits also ship in custom cases, which can carry lights, stands, and other accessories.
