

MOTOR1

Magic Motor for ES Series Slider (*E-Image*)

ONE SHEET

Overview

Unlock the next level of camera control with the new E-Image MP01 Magic Motor! It takes very little time for the MP01 to seamlessly integrate with any E-Image ES Series slider. Within minutes, the MP01 will quickly convert a manually operated camera slider into a precise imaging machine. For the first time, three camera control modes allows users to achieve cinematic quality previously unavailable except to the highest levels of video production. The accurate, powerful stepless motor allows the camera to move in both vertical and horizontal positions without hesitation. Add to that, its ability maintain steady, anti-shake motion the entire time!

But it's the included shutter control that unlocks the real power of the MP01's software. It allows you to easily capture beautiful time-lapse video and stop motion images with the simple touch of a button. The Bluetooth app, available for both IOS and Android, provides the option of adjusting almost any parameter of the MP01's operation.

Once you combine the MP01's power and precision with an ES series slider, you will undoubtedly understand why it will be one of the best cinematic tools in your in your filmmaking belt.

MOTOR1 | Magic Motor for ES Series Slider (*E-Image*) | UPC Code: 847983015580

Special Features

- 3 Modes of Operation:
Time Lapse, Stop-Motion, & Trace-Record
