3. Fit Frame to iPad Mount. Secure with 2 x Socket Head Countersink Screw.

LBP-03

**

Bottom view of iPad Mount and Frame.
** Align the 2 holes under the iPad Mount to the highlighted
   sets of holes on LBP-03.

Elite iPad Teleprompter Kit QUICKSTART GUIDE

4. Remove 4 x small frame screws and 2 x brackets. Insert prompter glass into frame. Secure prompter glass by replacing brackets and screws.

** Glass with more reflectivity side faces out.

NOTE: Each side of a piece of 30/70 teleprompting glass has a different amount of reflectivity. If the glass is not installed in the proper orientation then the user may experience a "double image" or "ghosting" effect on the image being reflected on the teleprompter. To eliminate this, the glass must simply be removed from the frame and flipped.
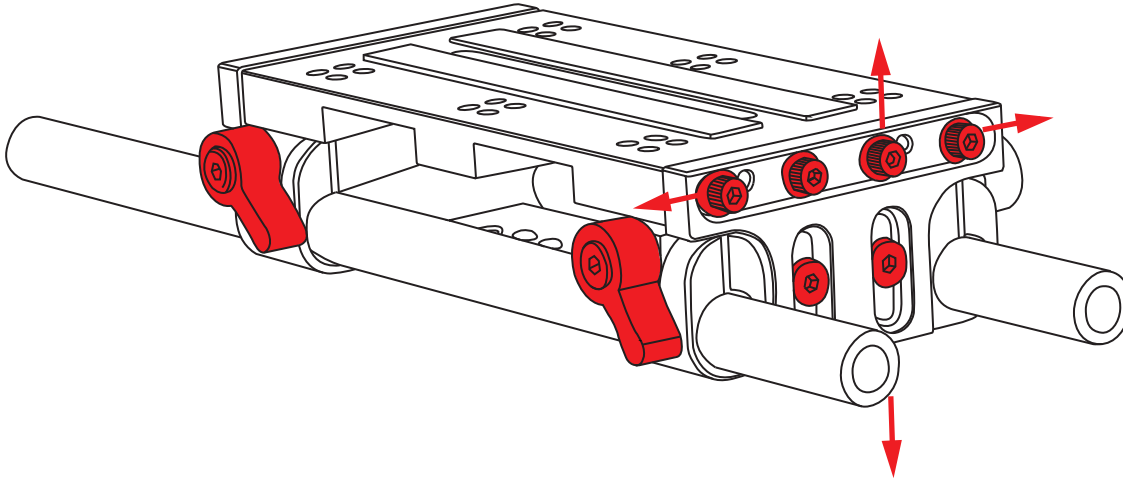

Bracket

Front view

Vertical Adjustments to the frame can be made by loosening the Hex Screws located on the inside of the unit.
