## Elite iPad Teleprompter Upgrade Kit QUICKSTART GUIDE

GETTING STARTED

1. Loosen the thumb screw. Turn LBP-03 90° and tighten it.

2. Slide the iPad Mount through the iPad Protection Bumper.

Note: The use of the iPad Protection Bumper is optional. It is intended to help prevent scratches or wear on your iPad.

4. Remove 4 x small frame screws and 2 x brackets. Insert prompter glass into frame. Secure prompter glass by replacing brackets and screws.
** Glass with more reflectivity side faces out.

NOTE: Each side of a piece of 30/70 teleprompting glass has a different amount of reflectivity. If the glass is not installed in the proper orientation then the user may experience a "double image" or "ghosting" effect on the image being reflected on the teleprompter. To eliminate this, the glass must simply be removed from the frame and flipped.

Bracket

Front view

Vertical Adjustments to the frame can be made by loosening the Hex Screws located on the inside of the unit.
