Location / Studio Teleprompter QUICKSTART GUIDE

STEP 1:

Place Teleprompter Base Assembly on a flat surface.

STEP 2:

45°

You can position the glass at any angle you want but the preferable angle is **45°**.

Location / Studio Teleprompter QUICKSTART GUIDE

STEP 3:

Slide the Camera Mount Assembly onto the 15mm Rods.

The tripod mount has 3 sets of holes that allow you to mount the plate either towards the front or rear to help balance the telepromter better.

For larger cameras its is better to have the plate toward the rear and for smaller cameras towards the front.

STEP 4:

DSLR	CAMCORDER

Attach camera to camera mount and slide to best position. Make sure all thumb screws are secure.

If you require the camera to be positioned higher you can replace the 200mm raiser bars in place of the pre-installed 130mm Rods.

Use the included 5/32 Hex Key to remove and attach the Raiser Rods.
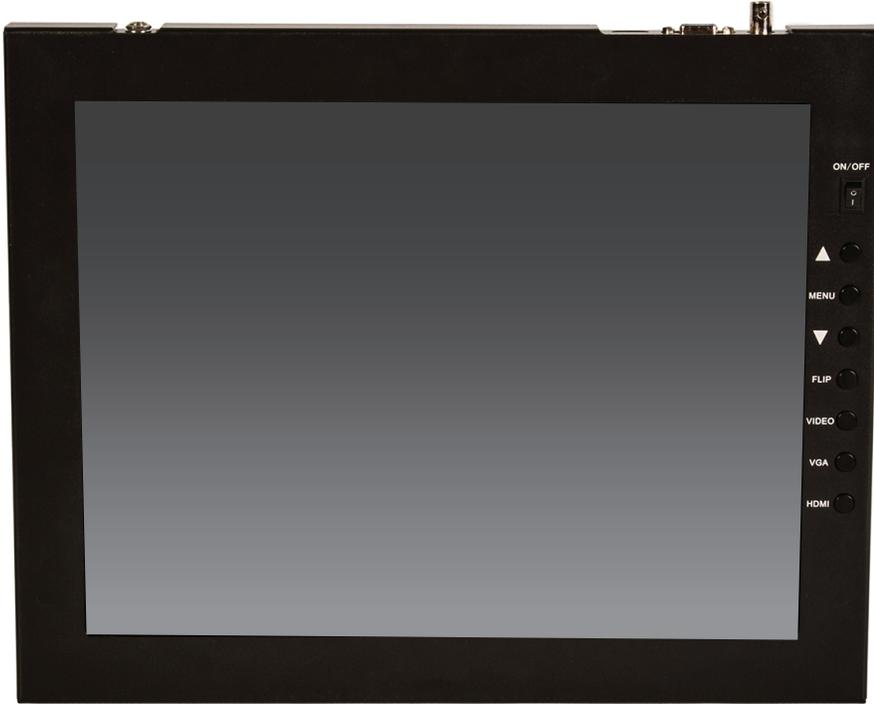

ikan

STEP 5:

Attach hood to glass frame using the integrated magnets. You can attach the optional side flaps.

To make your Teleprompter more portable we packed it in a reusable high quality foam. The shape and size of the foam was designed to fit into th SKB i Series 2918 waterproof case. Purchase the SKB case from your favorite dealer and simply slide our foam in the case.

* DO NOT THROW *
AWAY FOAM CASE

Glass can be removed from the frame by removing the two phillip head screws.

Easily slide the glass out of the frame.

You should only need to do this for cleaning
