## Rayden Daylight 1 x 1 LED Light

## Overview

Introducing Ikan's new brand of Rayden LED lights! What you can expect from the high CRI 45-degree lenses is extremely bright light! The 5600K color temperature delivers solid high color fidelity. With a 50-degree beam angle, you can easily light a large area with one fixture. The Rayden 1x1 light is equivalent to a 900-watt incandescent light.

Versatility is a key feature of the Rayden LED lights. The 30-degree yoke, baby 5/8" and junior 1 1/8" combo pin allow you to attach and configure the light in different ways. Strong, steel tension knobs on the yoke also lock the light firmly in place when in use.

On the back, the large yellow button/knob allows you to adjust the light's settings with a few simple clicks. This includes the brightness and color temperature. The LED readout also provides very precise measurements. This light package includes AB and V-mount pro battery plates as well as Ikan's reliable barn doors with intensifiers.

Best of all, the new Rayden LED lights have a maximum wattage draw of 82 watts at 0.6 amps so you can plug it in just about anywhere!

**RW10 |** Rayden Daylight 1 x 1 LED Light **| UPC Code:** 847983016464

*Features you need, Prices you want.*

## High CRI

These high CRI 45° LED lenses output a very bright, strong light.

## Solid 5600K Color Temperature

Consistent 5600K color temperature.

## Consistently Bright

The Rayden LED light gives you a consistent, bright light.

## 50° Beam Angle

A 50° wide beam angle offers plenty of light to illuminate your subject.

## Combo Pin Adaptor

The Baby ⁵⁄₈" & Junior 1-¹⁄₈" Combo pin includes a right angle receiver hole that allows you to attach it to any grip stand.

## Unobstructed Movement

The 30° angled yoke provides unobstructed movement of the light.

## Steel Tension Knobs

The new, stronger steel tension knobs securely lock the light in any place at any angle.

## Single Knob Control

Whether it's brightness or color, you can adjust all of these settings with a single knob at any time.

## New LED Readout Screen

The new LED readout is brighter and provides a quick reference of the light output with precise measurements.

## Battery Versatility

The AB & V-Mount battery plates give you the option to use any type of battery.

## Barn Doors Included

Ikan's reliable barn doors with intensifiers allow you to shape the light to fit your needs.

## Maximum Power Draw

These lights output a maximum power draw of 82-Watts, allowing you to plug it into any AC Power.

## Incandescent Equivalent

The Rayden LED Light is equivalent to a 900 Watt incandescent light, which makes them ideal for interview settings.

## RF Remote Control

Whether it's one or multiple lights, the RF remote control allows you to adjust them even from across the room.
