Getting Started

Thank you for buying the SFB150 Fresnel Light from ikan. Please carefully read the instructions and guide before operating the products. The guide includes product usage and maintenance. When you operate the product, please make sure that you have read the instructions carefully.

All the content of the manual is based on up-to-date information; technical data subject to change without notice.

Overview

Absolute lighting control is right at your fingertips with this Stryder Fanless 150 watt LED Fresnel Light with DMX. The impressive daylight LED features a 4" Fresnel lens with a spot to flood beam range of 30 to 65°. Toss in the ability to accurately shape light with removable barn doors, dimming capabilities between 0-100% (controlled in increments 5), and its ability to use traditional gel rings, mean that this workhorse of a light will undoubtedly become a staple in your kit.

Structure

- A. LCD Display
- B. Color Temperature/
Confirmation Knob
- C. DMX Channel Adjustment
- D. Brightness Knob
- E. DMX Input
- F. DMX Output

- P. V-Mount Battery Plate

Notice & Maintenance

- Products must be placed on a stable, dry, flat surface. Avoid exposure to sunlight and operating in an environment with high humidity or explosive gas.
- Don't cover the fan vent. It will shorten the working life of the fixture.
- Don't knock or shake the lighting equipment during the operation.
- If the SFB150 isn't working normally, please contact the Ikan repair department. Please don't disassemble/re-assemble by yourself.
- Please place the SFB150 in a cool and dry place when you don't use it for an extended period of time.
