

SLD-31-PRO

Heavy Duty Carbon Fiber Slider 31 Inch

ONE SHEET

Overview

Add motion to your video production with the 31-inch Heavy Duty Carbon Fiber Sliders from Ikan. Lightweight and portable, the SLD-31-PRO weighs in at 2.9 lbs, has a recommended load capacity of 27 lbs, and supports DSLR, Mirrorless, or Video cameras. Eight sealed bearings on aluminum rollers glide smoothly along the 22 mm carbon fiber and achieve stable, precise movements.

The large 5x5 inch camera sled supports heads and cameras of different sizes. At the ends of the slider are adjustable outrigger feet for leveling the device on uneven surfaces. The integrated bubble level helps level the camera to the horizon.

The included soft transport case makes the SLD-31-PRO an easy-add to your production toolkit, especially for on-the-go shooters.

SLD-31-PRO

Features you need, Prices you want.

Solid Construction

Made with aluminum and carbon fiber components, the SLD-31-PRO is durable and lightweight.

Precise Ball-Bearing Slider System

The slider uses eight precision-sealed bearings mounted on aluminum rollers to track smoothly along the carbon fiber rails.

Easy-Level Outrigger Legs

Leveling the slider on uneven surfaces is easily done by adjusting the outrigger legs.

Large Camera Platform

The slider's wide camera platform allows for different mounting options and makes leveling cameras easy. A $\frac{3}{8}$ "-16 thread mounts a flat fluid head.
