

ABOUT US

Ikan is a company of filmmakers. Our staff is almost entirely composed of seasoned professionals whose first love is the world of film and video. As filmmakers, we understand the challenges our customers face on a daily basis. We understand the need for reliable, dependable equipment. We understand that a piece of gear going down during an important shoot can affect your reputation. We also understand that, while imagination may be limitless, budgets aren't. Whether it's an expensive Hollywood motion picture or an intimate wedding shoot, you need to maximize the value of the products you're choosing to buy. And because we understand these things, we feel it's our responsibility to continue to bring our customers the best available technology, quality, service, and long-term value across our entire product line. Whether it's our lights, gimbals, tripods, monitors, or the hundreds of other production tools we've brought to the market, all of Ikan's products are created by filmmakers to empower filmmakers.

A woman with long dark hair and glasses, wearing a black sleeveless dress, is seated on a black stool and playing a violin. She is positioned on the right side of the frame. The background is a wall made of horizontal wooden planks. In the center, a professional video camera is mounted on a black tripod with wheels at the base. Above the camera, a large black light fixture is suspended, and to its left, a smaller light fixture is also suspended. The scene is dimly lit, with the primary light source being the studio lights.
