ABOUT US

At Ikan, we believe every story deserves to shine.

Since 2005, we've been empowering broadcasters and creators with tools that break barriers and unleash creativity. From our first on-camera monitor to today's cutting-edge PoE lighting and AV-over-IP solutions, we've redefined what's possible in professional broadcasting.

Our mission is simple yet powerful:
To make professional-grade broadcasting accessible for everyone.

Whether you're a system integrator building state-of-the-art studios, or a content creator shaping narratives that inspire change, Ikan is your partner in innovation.

Together, let's bring your vision to life—one frame at a time.

LYRA POE LIGHTS
Lighting Made Smarter

Imagine a studio free from cluttered cables—where setup is seamless, efficiency soars, and every shot is illuminated flawlessly. That's the promise of Ikan's Lyra PoE series.

Powered by Power-Over-Ethernet (PoE++) technology, these bi-color LED lights redefine simplicity while delivering stunningly consistent light quality.

Designed for modern studios with tight spaces or low ceilings, Lyra PoE offers effortless control via DMX compatibility while reducing installation costs. Illuminate your vision without limits—because great stories deserve great lighting.

STUDIO ROVER

Automate Content Creation. Anywhere.

Broadcast-quality mobile studio - on wheels; fully IP-controlled, anywhere you need it.

Turnkey Studio in Motion

Delivered pre-assembled, tested, and ready to deploy.

Includes integrated PTZ camera, teleprompter, Q-SYS-ready lighting, confidence monitor, and motorized lift—engineered to work seamlessly as a single unit.

One-button operation: Instantly adapt camera angles, monitor feeds, lighting, and teleprompter via personalized user profiles.

Seamless IP Integration

All components managed remotely via user-friendly IP protocols (NDI, Visca, Art-Net, sACN).

Native integration with Q-SYS and corporate AV platforms for zero-learning-curve adoption.

Next Generation Studio Design

Empowers non-expert teams to launch broadcast-grade productions—no engineering degree required.

Relocates smoothly between rooms and environments for total flexibility.

Delivers repeatable results, dramatically reducing risk and install times for integrators and AV managers.

Award-Winning Reliability, Future-Ready

Recognized for technical excellence and simplicity by AV Technology's Best of Show at InfoComm 2025.

Supported by Ikan's expert team—training, documentation, and integration support included.

Studio Rover at NAB 2025

Best of Show Award at InfoComm 2025

IPTALLYBRIDGE-VMIX $99.99

IP Tally Bridge for vMix is the simple solution for integrating Ikan IP tally lights with your vMix production setup. Just enter your vMix IP address, add your tally lights with their IP address and corresponding camera numbers, and connect—the app handles the rest. It pulls live status from vMix to light up tally lights in red when a camera is on air or green when it's in preview mode, helping your team stay coordinated during productions.
