

## White Star 6" Fresnel 150W 5600K LED Light w/ DMX

Illuminate your projects using the White Star 6" Daylight Fresnel 150 Watt LED Light. This powerful lighting solution combines a 6" Fresnel lens with a 150W LED, delivering exceptional performance for a wide range of applications. Its daylight 5600K color temperature with 97 CRI ensures accurate color rendering, while the rotating focus knob allows you to adjust the beam angle from 25 to 65 degrees. The active cooling system maintains optimal temperature while still being quiet enough for studio use. The solid aluminum construction guarantees durability. With 512 DMX in and out, channel selectors with a digital readout, and local dimming control, this Fresnel LED light offers unparalleled control over your lighting environment. The package includes 4-way barn doors for precise light shaping.
